

WHAT SETS US APART

All SOC team members have technical certifications and substantial industry insight, as well as years of experience performing and issuing service provider audit reports.

Deep Operational and IT Audit Insight

Service from Dedicated SOC Leaders

SOC team leaders have completed the AICPA's SOC School and authored and instructed key industry courses, such as "Third-Party Assurance Assessments: Understanding the Impact on Your Business."

With a four-step engagement process that minimizes cost and operational disruptions, SC&H is often selected to replace audit teams from the "Big 4" and other global accounting firms.

Proven Approach to Optimizing Controls

Commitment to Ongoing Knowledge Sharing

We communicate throughout all planning and execution, continually educating clients regarding our processes and seeking feedback to ensure expectations are being met.
