Why Partner with SC&H Group?

Accounting and finance in the government contracting space is typically characterized by complex government contract requirements, numerous manual processes, disparate systems, and outdated technology. As a result of abundant M&A activity in recent years, many of these processes have become lengthy and error-prone, including those necessary to prepare consolidated financials, data reconciliations, and forecast updates.

SC&H assists organizations in improving their decision-making through business process improvement and Enterprise Performance Management implementation services. Our consulting group features seasoned professionals who have spent the majority of their careers providing services in business process improvement around the budgeting/planning, financial close, consolidation, and reporting processes, with particular specialization in finance and accounting process reengineering and software implementations.

We have successfully reviewed, assessed, and designed enterprise-wide planning and financial reporting processes geared to lead these organizations through the murky waters many government contractors find themselves navigating.

SC&H Group is a nationally recognized management consulting, audit, and tax firm that serves clients ranging from rapidly growing startups to Fortune 500 companies with global brands. The firm's strategic practices provide leading-edge thinking and advice that transform our clients' businesses and help them outpace the competition.
